

GIANT GB170 NM Safety Boots Black

Pack Quantity: 1

The GIANT WEAR GB170 NM Safety Boots are built for durability, protection, and all-day comfort in demanding work environments. Crafted from smooth black leather, these lightweight boots feature non-metallic components, making them ideal for hazardous settings. A heavy-duty composite toe and Kevlar-type midsole provide reliable protection, while the heat and oil-resistant sole withstands temperatures up to 300°C - perfect for surfacing contractors. Designed with enhanced grip to reduce slips, a waterproof finish, and a sturdy TPU scuff cap for added longevity, these boots offer dependable performance on site. Fully compliant with EN ISO 20345:2011 and S3 safety standards.
