

EVO TOOL Lithium EP2 Grease

400g

Product Code: HT02340

Pack Quantity: 12

EVO TOOL Lithium EP2 Grease is a highly versatile multi-purpose grease designed for industrial applications.

Supplied in a convenient 400g cartridge, it delivers excellent extreme pressure and anti-wear performance while providing a high degree of corrosion protection.

Suitable for use in all anti-friction and plain bearings, it helps ensure reliable lubrication and long-lasting equipment performance across a wide range of operating conditions.

KEY FEATURES

- 400g
- Highly versatile multi-purpose grease
- Excellent extreme pressure & anti-wear performance
- High degree of corrosion protection
- Industrial use
- For use in all anti-friction & plain bearings
- Box quantity: 12
- Priced & sold individually

DIRECTIONS FOR USE

- Remove cartridge seal using pull-ring & insert into 400g cartridge grease gun
- To ensure application suitability, check compatibility with previously used grease & purge bearings if required
- When applying grease, avoid over-application
