ISO & EN 13236

WHAT IT CUTS:

- Concrete
- Kerbs
- Paviors
- Slabs
- General Building Materials
- Some Natural Stone

CHECK BEFORE USE:

- The diameter & bore size are correct for the machine
- The blade is in good condition with no cracks or segment damage
- The flanges on the machine are equally sized
- The machine does not exceed the RPM marked on the blade
- The rotational arrows on the blade are correct in relation to the machine

CHECK DURING USE:

- The blade is free of segment damage or steel cracking
- The blade is not overheating
- That excessive pressure is not being applied
- The material is not too hard for the type of blade
