

GROUND PRO Tar & Bitumen Cleaner

25L

Product Code: **LM00002**

Pack Quantity: **1**

Ideal and long lasting solution that prevents build-up of bitumen on tools and machinery it only has minimal effect on the properties of bitumen material.

Bitumen cleaner is a safe and economical alternative to using diesel which due to recent legislation, does not provide an environmentally friendly option. There are also severe health implications to the workmen when diesel is used.

KEY FEATURES

- 25L
- Fast acting cleaner solution for removing tar, bitumen, wax and other contaminants from a variety of surfaces including brickwork, concrete, terrazzo, marble and stone surfaces.
- Ideal for cleaning smaller hand tools, such as brushes and shovels, as well as larger machinery such as hot boxes via a spray/brushed application.
- Leaves an oily residue which can be easily removed with warm soapy water
- Safe and economical alternative to using diesel
- 100% environmentally friendly
- Fully bio-degradable
- Non toxic

PRODUCT USE

Tar & bitumen cleaner effectively, safely and completely removes tar, bitumen and bituminous compounds from brickwork, concrete, terrazzo, marble and stone surfaces. It eliminates the problems which occur on all building sites, caused by unsightly tar or bitumen runs, spillages and oversprays. Ideal for cleaning smaller hand tools, such as brushes and shovels, as well as larger machinery such as hot boxes via a spray/brushed application.

VOLUMES AVAILABLE

CODE	VOLUME
LM00001	5L
LM00002	25L
LM00004	200L
LM00003	1000L IBC

DIRECTIONS FOR USE

To obtain best results, wet surface first with water to take up absorbency.

Always keep the tar & bitumen cleaner in your stores for those accidental spillages which occur on every site.

Must be stored and kept away from children.

DO

- Apply bitumen cleaner sparingly through a hand held sprayer.
- Apply to rakes, shovels, pavers and digger buckets.
- Wear gloves while using bitumen cleaner.
- Only apply bitumen cleaner to surfaces that come into contact with bitumen.
- Reapply bitumen cleaner when bitumen starts to build.
- Keep cap tightly closed on bitumen cleaner containers in case of spillage.

DON'T

- Puddle bitumen cleaner, over-usage is uneconomical and not needed.
- Douse boots before walking on freshly laid asphalt.
- Use bitumen cleaner on rollers, whacker plates or tampers during surfacing.
- Spray bitumen cleaner onto windscreens or mirrors as it will obscure vision.
- Spray bitumen cleaner where bitumen does not contact, it is not a vehicle cleaner.
- Spray bitumen cleaner onto metal walkways, boots soles or pedals as this may cause a slip hazard.
- Spray rubber hoses as some types may corrode over time. (only outer body, hose will not fail).
- Pour excess bitumen cleaner into waterways.

WARNING:

Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Keep container tightly closed. Ground/bond container and receiving equipment. Use explosion-proof electrical/ventilating/lighting equipment. Take precautionary measures against static discharge. Avoid breathing vapours. Use only outdoors or in a well ventilated area. Wear protective gloves and eye protection.

Avoid contact with skin and eyes. Do not ingest. May cause irritation. Use protective gloves and eye protection. In case of contact, rinse with water and seek medical advice if needed. Harmful to aquatic life - avoid release into the environment. Dispose of contents and container in accordance with local regulations.
