

## SECTION 1: Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifiers

Product name : GROUND PRO Tar & Bitumen Cleaner

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

Identified uses : Chemical Feedstock

Used advised against : None identified

### 1.3 Details of the supplier of the safety data sheet

Company : CID Trading LTD  
Friden House  
Unit 1 Clayton Wood Bank  
Horsforth  
Leeds  
LS16 6QZ  
United Kingdom

Telephone : 0113 201 1340

E-mail address : [sales@cidgroup.co.uk](mailto:sales@cidgroup.co.uk)

### 1.4 Emergency telephone number

Emergency Phone : 0113 201 1340 (only available during office hours)

## SECTION 2: HAZARDS IDENTIFICATION

### 2.1 Classification of the substance or mixture

#### Classification according to Regulation (EC) No 1272/2008 [CLP]

Flam. Liq. 3	H226	Flammable liquid and vapour
Skin Irrit. 2	H315	Causes skin irritation
Skin Sens 1	H317	May cause an allergic skin reaction
Eye Irrit. 2	H318	Causes serious eye damage
Aquatic Acute 1	H400	Very toxic to aquatic life
Aquatic Chronic 1	H410	Very toxic to aquatic life with long lasting effects

### 2.2 Label elements

#### Labelling according Regulation (EC) No 1272/2008 [CLP]

Pictogram

Signal word Danger

Hazard statement(s)

H315 Causes skin irritation

H317 May cause an allergic skin reaction

H318 Causes serious eye damage

H410 Very toxic to aquatic life with long lasting effects

Precautionary statement(s)

P261 Avoid breathing vapour/spray.

P280 Wear protective gloves/protective clothing/eye protection/face protection.

P303+361+353 IF ON SKIN: Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower.

P305 + P351 + P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

Supplemental Hazard statements None

### 2.3 Other hazards : This product is not identified as a PBT/vPvB substance

---

**SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS****3.2 Mixtures**

CAS No.	EC No.	Index No.	Classification	Concentration
Dipentene				
138-86-3	205-341-0	-	Flam Liq. 3, Skin Irrit. 2, Skin Sens 1, Aquatic Acute 1, Aquatic Chronic 1. H226, H315, H317, H400, H410	>90%v/v
IsotridecanolEthoxylate(EO 6 - 20)				
24938-91-2	-	-	Eye damage. 1, Acute Tox. 4 H318, H302	<8.5%v/v

For the full text of the H-Statements mentioned in this Section, see Section 16

---

**SECTION 4: FIRST AID MEASURES****4.1 Description of first aid measures****If inhaled**

Unlikely to occur during intended use. If vapour or mists are breathed in, move person into fresh air. If not breathing, give artificial respiration.

**In case of skin contact**

Wash off with soap and water. If irritation persists, seek further medical attention.

**In case of eye contact**

Rinse thoroughly with plenty of water for at least 15 minutes. Take care not to wash the chemical from one eye to the other. If irritation persists, seek further medical attention.

**If swallowed**

Never give anything by mouth to an unconscious person. If person is conscious, rinse mouth with water and give plenty of water to drink. Seek further medical attention if feeling unwell.

**4.2 Most important symptoms and effects, both acute and delayed**

When properly handled, the product is not dangerous for human health.

**4.3 Indication of any immediate medical attention and special treatment needed**

No data available

---

**SECTION 5: FIREFIGHTING MEASURES****5.1 Extinguishing media****Suitable extinguishing media**

Use water fog, alcohol-resistant foam, dry chemical or carbon dioxide.

**Unsuitable extinguishing media**

None.

**5.2 Special hazards arising from the substance or mixture**

Highly dependent on combustion conditions. May produce decomposition fumes and combustion products if involved in a fire.

**5.3 Advice for firefighters**

Do not breathe decomposition products and fumes. Use approved self-contained breathing apparatus. Wear fire retardant clothing. Use water spray to cool containers. Use water fog to disperse vapours and leaks that have not ignited. Prevent runoff from fire control from entering waterways. Large fires should only be dealt with by trained personnel.

---

**SECTION 6: ACCIDENTAL RELEASE MEASURES****6.1 Personal precautions, protective equipment and emergency procedures**

Use suitable personal protective equipment (refer to Section 8 for details). Avoid breathing vapours or mists. Ensure adequate ventilation.

**6.2 Environmental precautions**

Prevent further leakage or spillage if safe to do so. Do not let product enter drains or watercourses.

**6.3 Methods and materials for containment and cleaning up**

Absorb in inert material such as sand or non-combustible granules. Scoop up and place in a plastic container and dispose of in a manner consistent with applicable regulations.

**6.4 Reference to other sections**

For disposal see section 13.

---

## SECTION 7: HANDLING AND STORAGE

### 7.1 Precautions for safe handling

Avoid contact with skin and eyes. Avoid inhalation of vapour or mist.

### 7.2 Conditions for safe storage, including any incompatibilities

Store in cool place. Keep container tightly closed in a dry and well-ventilated place. Containers which are opened must be carefully resealed and kept upright to prevent leakage.

### 7.3 Specific end use(s)

No data available

---

## SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

### 8.1 Control parameters

#### Components with occupational exposure limits

None.

### 8.2 Exposure controls

#### Appropriate engineering controls

Use in well ventilated areas. Use mechanical ventilation in poorly ventilated areas.

#### Personal protective equipment

##### Eye/face Protection

Use equipment for eye protection tested and approved under appropriate standards such as EN 166.

##### Skin Protection

Handle with gloves. Gloves must be inspected prior to use. Use proper glove removal technique (without touching glove's outer surface) to avoid skin contact with this product. Dispose of contaminated gloves after use in accordance with good practices. Wash and dry hands. The selected protective gloves have to satisfy the specifications of EU Directive 89/686/EEC and the standard EN 374 derived from it. Recommended glove types include Nitrile, Polythene, Neoprene, PVC, PVA and Butyl gloves.

##### Body Protection

Wear suitable overalls or apron and change if contaminated.

##### Respiratory Protection

Where risk assessment in accordance with the hierarchy of controls established within the Chemical Agents Directive shows a requirement for respirators as a means of control, use an organic, acid gas filter type A.

#### Environmental exposure controls

Prevent further leakage or spillage if safe to do so. Do not let product enter drains.

---

## SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

### 9.1 Information on basic physical and chemical properties

a) Appearance	Form: liquid
b) Odour	Characteristic
c) Odour Threshold	no data available
d) pH	no data available
e) Melting point/freezing point	no data available
f) Initial boiling point	no data available
g) Flash point	46°C
h) Evaporation rate	no data available
i) Flammability (liquid)	Flammable
j) Upper/lower flammability or explosive limits	no data available
k) Vapour pressure	no data available
l) Vapour density	no data available
m) Relative density	no data available
n) Water solubility	Miscible in alcohol
o) Partition coefficient (n- octanol/water)	no data available
p) Auto-ignition temperature	237°C
q) Decomposition temperature	no data available
r) Viscosity	no data available
s) Explosive properties	None
t) Oxidizing properties	None

### 9.2 Other safety information

No data available

---

## SECTION 10: STABILITY AND REACTIVITY

### 10.1 Reactivity

No data available on mixture.

### 10.2 Chemical stability

Expected to be stable at normal temperatures and under recommended storage conditions.

### 10.3 Possibility of hazardous reactions

No data available.

### 10.4 Conditions to avoid

High temperature (>50°C), sources of ignition & direct sunlight.

### 10.5 Incompatible materials

Strong oxidising agents, soluble carbonates and phosphates, hydroxides, metals, peroxides and permanganates.

### 10.6 Hazardous decomposition products

No hazardous decomposition products when stored and handled correctly.

---

## SECTION 11: TOXICOLOGICAL INFORMATION

### 11.1 Information on toxicological effects

#### Acute toxicity

LD<sub>50</sub> (oral)/LD<sub>50</sub> (dermal)/LC<sub>50</sub> (inhalation): No acute lethal effects.

#### Skin corrosion/irritation

Irritating to skin.

#### Serious eye damage/eye irritation

Causes serious eye damage.

#### Respiratory or skin sensitisation

May cause skin sensitisation and allergic reactions in sensitised individuals.

#### Germ cell mutagenicity

No known mutagenic potential.

#### Carcinogenicity

IARC: No component of this product present at levels greater than or equal to 0.1% is identified as probable, possible or confirmed human carcinogen by IARC.

#### Reproductive toxicity

No known toxic to reproduction potential.

#### Specific target organ toxicity - single exposure

No data available on mixture. Inhalation of significant vapours or mists may cause transient respiratory irritation.

#### Specific target organ toxicity - repeated exposure

No data available.

#### Aspiration hazard

No data available on mixture. Not expected to pose an aspiration hazard.

#### Potential health effects

<b>Inhalation</b>	May be harmful if inhaled in quantity. Vapours may irritate throat and respiratory system and cause coughing.
<b>Ingestion</b>	May be harmful if swallowed with gastrointestinal symptoms including stomach upsets.
<b>Skin</b>	Causes skin irritation and potential sensitisation effects.
<b>Eyes</b>	Causes serious eye damage which may be permanent if not treated rapidly.

#### Signs and Symptoms of Exposure

Material may cause irritation to the respiratory tract, eyes and skin. Symptoms may include inflammation of the mucous membranes and upper respiratory tract, coughing, wheezing, shortness of breath. To the best of our knowledge, the chemical, physical, and toxicological properties of this mixture have not been thoroughly investigated.

#### Additional Information

Not available.

---

## SECTION 16. OTHER INFORMATION

### Further information

#### Text of H-statements mentioned in Section 3

H226	Flammable liquid and vapour
H302	Harmful if swallowed
H315	Causes skin irritation
H317	May cause an allergic skin reaction
H318	Causes serious eye damage
H400	Very toxic to aquatic life
H410	Very toxic to aquatic life with long lasting effects

#### Recommended restrictions on use

Use in accordance with manufacturer's technical instructions.

#### Revision history

Amendment to revision dated 21.11.2017 to incorporate changes to environmental hazard classification in Sections 2, 3 and 12.

The information in this Safety Data Sheet should be provided to all who will use, handle, store, transport or otherwise be exposed to this product. This information has been prepared for the guidance of plant engineering, operations, management and for people working with or handling these products. This information is believed to be reliable and updated at Revision Date, and represents the best information currently available and known by CID Trading LTD. However, CID makes no guarantee or warranty, express or implied, with respect to such information and we assume no liability resulting from its use. The information related herein is based on proper handling and anticipated uses and is for the material without chemical additions or alterations. Users should make their own investigations to determine the suitability of the information for their particular purposes. It is the responsibility of the user to undertake a suitable risk assessment/COSHH assessment prior to using this material.
