

Tamping Bar

Product Code: **HT02825**

Pack Quantity: **1**

Tamping Bar used to compact freshly poured concrete helping to remove air pockets, ensuring a dense, even, and strong surface.

Essential for achieving proper consolidation, especially in small-scale projects or areas where mechanical compactors cannot reach.

PRODUCT FEATURES

- Used to compact freshly poured concrete
- Helps remove air pockets, ensuring a dense, even & strong surface
- Ideal for compacting concrete in slabs, footings & confined spaces
- Designed to be heavy enough for efficient compaction without excessive effort

SPECIFICATION

380mm Long

25mm Square
